SUPPLEMENT TO  
REPORT NO.

25X1X

1. A new steel tower 30 to 35 m tall, which is reported to be a radio detection station, has been erected in Olomouc at the junction of Albert and Walker Streets, opposite the hospital. A radar installation may also use the tower, which is linked by a small bridge to a building that contains the rest of the installations. The entire unit is surrounded by elaborate barbed-wire fences.
